Dear patient,

In light of the current pressure on the NHS due to Covid-19 we have decided that we need to postpone all our long term condition clinics. This means that your routine review will be delayed at least until July.

Please be assured that this will have no impact on the ability to order your repeat prescription.

If you have any medical concerns or unusual symptoms then please phone to speak to the nurse as usual.

To minimise the need for you to visit the surgery if you have access to the internet please email overdale.reception@nhs.net to sign up to order your medication online. Please can you also inform us within that email which chemist you would like your medication to be sent to.

Yours sincerely,

Overdale Medical Practice
