January 2017

Shona from Neish Consultancy Limited has been working with Siltbuster for over 2 years now.

Her flexible approach allows some Leaders to be coached on a monthly basis and others to be coached on an adhoc basis when they feel the need or require support with a particular issue or situation.

She has developed strong relationships with the Organisation both with her Coachees and the wider community that she engages with.

Shona helps take my people where they do not always want to go but where they need to go.

Neish Consultancy has strong values and ethics and Shona demonstrates these at all times. She also ensures that confidentiality is ensured.

She works well with all levels in the Organisation and we are delighted at the progress and development of those she works with.

I would highly recommend Shona as a Coach.

Richard Coulton
Business Owner

Hire, Sales & Technical Support
